TO OUR CORRESPONDENTS.

Get the news and get all the news and nothing but the news - From Dana's Celebrated Mixims in Journalism.

THERE are six kinds of good money in the country and the Lord only knows how many counterfeits.

Cor. Thomas G. Poore, of Frankfort, has declared himself aCandidate forClerk of the Constitutional Convention.

THE man selling whiskey in "Original packages" at Russelville, Ky., skipped out after being indicted ninety two times

THE information that reaches this office that we are to have no more Republican party in this county is certainly a mistake. We don't like it in that shape no how. Well hardley.

THE Sheriffs ticket came out with the

largest majority in the Democratic bunch running up to 448. Len Cashman for Assessor was next best, coming under the string with a clean sweep of 431. CLOVERPORT got the salt water the

other day at a depth of about three hundred feet. Now if there is anything else around here that the gentlemen want all they have to do is to ask for it. John Bruce who killed George Dowd

at Rock Haven, Ky., has been sent to the Louisville jail for safe keeping. One or two attempts were made to lynch him while he was confined at the Brandenburg jail.

The execution of Kemmler in New York by electricity was a great blunder. The medical experts and many other scientific fellows took a hand in the job and made it so ridiculous that it is believed the system will be abandoned.

STRIKING salt water at a depth of three hundred feet indicates that we have it in abundance and that the great Soda Ash Plant will be established here, and the future commercial status of the city largely increased, Col Young, come down sir, come down.

In one precinct in this county as many as thirty five negroes voted the straight Democratic ticket. At other points the number was not so large but there were enough to count well. Whenever a darkey leaves the Republican party and goes to voting with the Democrats he is usually there to stay.

GEN H. B. Lyon, of Eddyville, Rudolph Finzer, of Louisville, Jas. A. Lineback, of Owensboro and Capt. M. B. Bolan, of Frankfort, have been appointed by the Governor to represent Kentucky in the Annual Prison Congress which meets at Cincinnati September

Mike Rooney who is on the police force at Henderson, shot a clothing peddler the other day while attempting to arrest him. The peddler was resisting arrest and struck at Rooney twice with a pair of bruss knucks, when he shot him. It was thought the peddler would die. Mr. Rooney is well known in this city where he formerly lived.

SAM HILL has withdrawn from the race for Congress in the Fourth district. All the other prospective candidates are out of the way except Judge Russell, of Marion. This insures Montgomery's re-election. It is not probable that anybody could have beaten him in the primary election, which has been ordered, and more likely he will yet make the race alone. He has made an admirable Representative, and ought by all means be kept in Congress.-Owensboro Mess-

THE election is over and the vote all in and as was confidently predicted by the News the Democrats have won by a sweeping majority. The prediction was founded upon the belief that the fight would be one for principle, that the Democrats intended to fight it out on that line; and if they had forsaken those principles for low electioneering schemes and devices they would have sustained a merited defeat This is not a time for "peanut politics. There are questions of vital importance before the people and every man is presumed to understand something of his country's government. The newspaper, the great educator of the masses, finds its way into every home and the politician who, some years in the past, could catch a voter by a little personal flattery, misrepresentations of the other party and a few promises, is now confronted with questions relative to the public welfare which engage the attention of every citizen. The victory we have just gained in Breckenridge illustrates the importance of sticking to and pushing a principle. The Democrats have wanted nothing better to stand upon than their own platform and from that stand the victory was won. The growth of the Democratic majority in the state indicates that the people are wide awake to the situation and by their vigorous action prove that they denounce the present National Administration. Such nefarious business as has been carried on by the Quay-McKinley- Reed party will have its effect and the News predicts here that in the coming November election that effect will be seen in increased Democratic majorites in every state in the Union.

Now that the delegates to the Constitutional Convention have been elected and will assemble about the first of September, Breckenridge county wants to furnish the clerk for that body. We offer a candidate in the person of Mr. Jas. E. Stone, a gentleman thoroughly equipped and qualified for the work. He has served two terms as clerk of the Kentucky house of Representatives where his service gave universal satisfaction. We think he is the man for this position.

The Republicans didn't carry a single precinct in the county. They have not made such a poor showing in an election here for many, many, years. What is the matter? Where is the trouble? Republicans may be able to work out the question satisfactory but to a large number of Democrats the matter is plain enough. The legislation worked upon the people by their leaders in Congress: their disposition to override and overawe the affairs of the country in disregard of the people's will, is being felt, and the only way to stop it is to vote it down at the polls. The people are thinking and acting for themselves. There is nothing in Republicanism. It means revolution and disaster to the country if allowed full sway. Here in Breckenridge we constitute but a small vestige of that great army of thinkers throughout the country, but we are as eager to be free of Republican domina, tion as any other community.

Deafness Can't be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroved forever: nine cases out of ten are caused by catarrah, which is nothing but an inflamed condition of the mucous

We will give One Hundred Dollars for any case of Deafness (caused by catarrah) that we cannot cure by taking Hall's Catarrah Cure. Send for circulars,

Dr. W. S. Taylor, dentist, of Owensboro, will be in Hardinsburg, on Friday and Saturday of this week, prepared to practice his profession. The doctor can be found at the Lennin House.

The U.S. Mail will go on the railroad next Monday. But this will not interfere with Smith & Buzby's business between here and Cloverport. They will still run their wagon regularly and carry passengers at cheaper rates than the rail

The speech that Dr. Mosely made on Monday night at the ratification meeting called forth some strong endeavors from some of his friends to show their appreciation. On Thursday night following some one saw fit to tear down the doctor's sign from his office door, and thereby show to everybody how much a speech was appreciated. Of course a man who would do such a thing is hardly worth a newspaper notice, but this is only given to illustrate a feeling that existed here just after the election.
